In fact, it's one of the core missions of the program to change the elite perception of leadership and make it everyone's responsibility.

WHAT SOHAIL HAS TO SAY ABOUT LEADERSHIP ACADEMY?

Transformation and leadership cannot be separated as every action of a leader has the power to directly or indirectly transform the lives of many people. One who wishes to be a great leader must also constantly strive to transform herself/himself.

I believe the quality of your life comes down to your level of leadership - it is the most important skill any human can master. A true leader inspires themselves and others to do, be, give and become more than they ever thought possible. I designed Leadership Academy specifically for you, willing to answer the call to lead yourself, others and the world.

I could have never done it alone. Hence, I was inspired to involve those who are transforming people, every day. The academy features leaders from the industry who share their insights, struggles, hope and ideas for leading well.

So, make the decision today to empower yourself and make an impact. Even with phenomenal resources, both material and human, at your disposal, only you can create actual change. I'm looking forward to helping you make a measurable difference not only in your own life but also the lives of those you have the privilege to touch.

April 18, 2019 was an extraordinary day for me which started with an anxious, snail paced journey to the venue and concluded with a mind full of original and innovative views from the master, Sohail Zindani, together with insightful addresses of charismatic guest speakers. Absolutely rejuvenating. I witnessed how Sohail had his grip on each participants' pulse and gave them the best of experience they had wished for.
