

SIX THINKING HATS®

DATE: MAY 08 - 10, 2024

VIRTUAL

Dr. Sunil Gupta

Futurist, Creatologist, Lifetime Master Trainer, Dr Edward de Bono.

Major award winning Innovation projects with Governments & Fortune 500 companies globally by inculcating Strategic thinking & Creativity

Significant Applications for the Parallel Thinking Process of Six Thinking Hats

- Leadership Development
- Team Productivity, Alignment and Communication
- Creative and innovative thinking
- Meeting leadership and decision making
- Product and Process Improvement, and Project Management
- Critical, Analytical Thinking and Problem-Solving
- Organizational Change/Performance
- Wherever High Performance Thinking and Action is needed

The White hat - The White Hat calls for information that is known or needed.

The Red Hat - The Red hat signifies feeling, hunches and intuition.

The Black Hat - The Black hat is judgment – the devil's advocate or why something may not work.

The Yellow Hat - The Yellow hat symbolizes brightness and optimism.

The Green Hat - The Green hat focuses on creativity: the possibilities, alternatives, and new ideas.

The Blue Hat - The Blue Hat is used to manage the thinking process.

“**Imagine it. Your team has the skills and techniques they need to make the best decision. Fast. Smart. Efficient.**”

It's not impossible. In fact, it's simple once they know how. That's where Dr. Edward de Bono's Six Thinking Hats® come in. This systematic method of thinking in a completely new and different way will provide your employees with skills and tools that they can apply immediately!

It is a simple, effective technique that helps them become more productive. You and your team members can learn how to separate thinking into six distinct categories. Each category is identified with its own coloured metaphorical “thinking hat.” By mentally wearing and switching “hats,” you can easily focus or redirect thoughts, the conversation, or the meeting.

The difference between brilliant and mediocre teams isn't so much in their collective mental capacity, but in how well they can tap into their collective wisdom and how they can function together.

Using Six Thinking Hats®, you and your team will learn how to use a disciplined process which will...

- Maximize productive collaboration and minimize counterproductive interaction/behavior
- Consider issues, problems, decisions, and opportunities systematically
- Use Parallel Thinking as a group or team to generate more, better ideas and solutions
- Make meetings much shorter and more productive
- Reduce conflict among team members or meeting participants
- Stimulate innovation by generating more and better ideas quickly
- Create dynamic, results oriented meetings that make people want to participate
- Go beyond the obvious to discover effective alternate solutions
- Spot opportunities where others see only problems
- Think clearly and objectively
- View problems from new and unusual angles
- Make thorough evaluations
- See all sides of a situation
- Keep egos and “turf protection” in check
- Achieve significant and meaningful results in a less time

Trainer's Profile:

Dr Sunil Gupta is the founder of IDEAS a professional service firm that adds value by providing leading-edge thinking and innovative approaches to complex business issues. He is a Life-time Master Trainer across the de Bono thinking methods.

Sunil has worked extensively across Public and Private Sectors in over 40 countries. He has provided solutions to clients across varied industries and Governments. Sunil has initiated, designed, developed and followed up with several clients across continents to ensure that the de Bono tools are applicable in real life scenarios leading to top line and bottom-line successes.

Sunil has won several accolades; some more significant ones are from the Prime minister's offices of the UAE for leading think tanks and the Government of Bahrain for training the Crown Prince court members on thinking skills besides major breakthrough successes with hundreds of clients. His special capabilities are in relating to the client needs irrespective of the domain and then the selection and application of the appropriate tools.
